### Across

- 6.** Multiple types of exposures to a hazardous substance over a long period of time. (7)
- 7.** Regulations relating to the risks from work equipment (5)
- 11.** A document that details how a particular working process will be conducted in a safe manner, typically used for construction or installation procedures. (6,9)
- 15.** Main UK professional body for safety professionals (1,1,1,1)
- 16.** A condition caused by excessive exposure to hot temperatures, usually caused by profuse sweating in warm, poorly ventilated working environments. (4,10)
- 20.** Bright lights that reflect off a display screen and impede a person's sight, often causing excessive eyestrain and headaches. (5)
- 21.** Something that can cause harm (6)
- 22.** An official inspection of the health and safety management arrangements of a premises (5)
- 23.** A substance, usually a pollutant, which has been discovered in an area where it does not usually belong. (11)

### Down

- 1.** Formal, written specifications for controlling risks when carrying out hazardous work, usually for non-routine activities that require special precautions to control the hazards. (6,2,4)
- 2.** Immediate contact with a hazardous substance over a short time period. (5,8)
- 3.** A device that has an alphanumeric or graphic display screen, such as a computer monitor. (7,6,9)

- 4.** A designated person who has been nominated to take a supervisory role in the event of an accident, injury or illness. (9,6)
- 5.** Fires with flammable solids such as wood, plastic and paper. (5,1)
- 8.** Usual label colour for a carbon dioxide extinguisher (5)
- 9.** A legally required statement of a company strategy, consisting of their objectives to attain a safe working environment, their responsibilities, and the arrangements for implementing the strategy and achieving their aims. (6)
- 10.** The process of gathering information regarding the causes of an incident, with the purpose of formulating control measures to prevent the incident from reoccurring. (13)
- 11.** Lifting and carrying are covered under these Regulations (6,8)
- 12.** A substance that has destructive effects on another substance. (9)
- 13.** Ways in which hazardous substances can enter the body, including inhalation, injection, ingestion and absorption. (6,2,5)
- 14.** The minimum temperature in which the vapour of a substance, when mixed with oxygen, will ignite when a flame is applied. (5,5)
- 17.** A substance that causes an allergic reaction in the body. (8)
- 18.** A non-corrosive substance which can cause inflammation on the body through contact. (8)
- 19.** An undesired, unplanned incident resulting in injury, ill- health, death or damage. (8)
